## OLD IS NEW AGAIN!

As trends do, the beautiful designs of the past always seem to reappear in new forms.

**Nantucket Sinks** introduces a new collection of Victorian Era bathroom sinks, taking those looks from the 30's and reinventing them for modern times.

These sinks include an elegantly designed backsplash accommodating an 8-inch spread faucet and integral overflow.

Wall mounting hardware is included or use with sink legs. This new Nantucket Sinks collection is made in Italy from durable fine fireclay. Listed dimensions may vary slightly from actual.

Available exclusively through authorized showroom dealers.
