PROFESSIONAL KITCHEN SINKS

PRO SERIES COLLECTION

Following the trend for industrial and 'restaurant style' kitchens in the home, Nantucket answers the call with our Pro-Series sinks. All of these are high quality premium 16 gauge 304 stainless steel. From bar-prep to large and deep single bowls, all of these feature either small radius (SR) or zero radius (ZR) corners which create the modern styling that says "I got this" and create a can-do kitchen.

All of our Pro-Series have rubber padding applied for noise reduction, and are insulated to reduce condensation and the basin's bottom is pitched around the drain to whisk away water.

Our latest additions to the collection are our new Prep Station styles with different bowl configurations. Tiers at the top of the sinks allow for accessories maximizing the efficiency of the workspace. Functional accessories fit on these and include a stainless rolling mat, stainless colander, bottom grid and colander drain. Nantucket offers accessories to complete all our Pro-Series sinks; just the touch for the modern kitchen.

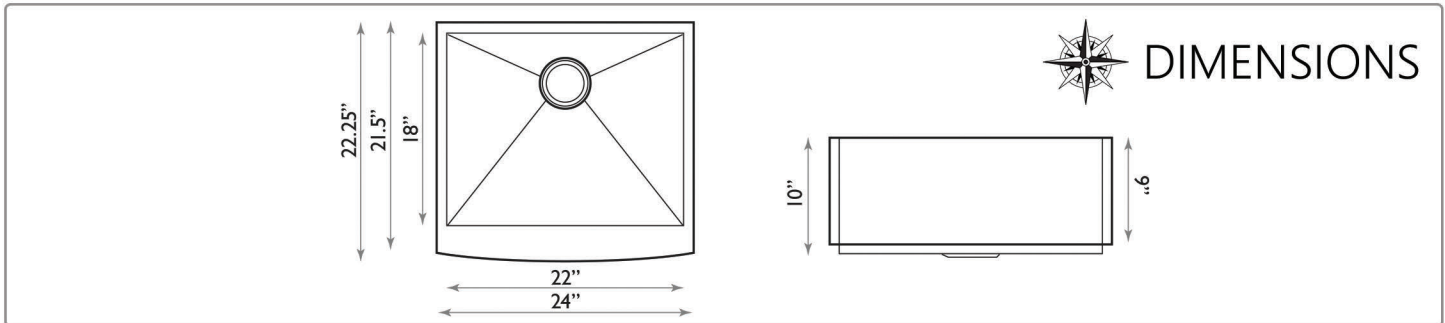

SMALL RADIUS APRON

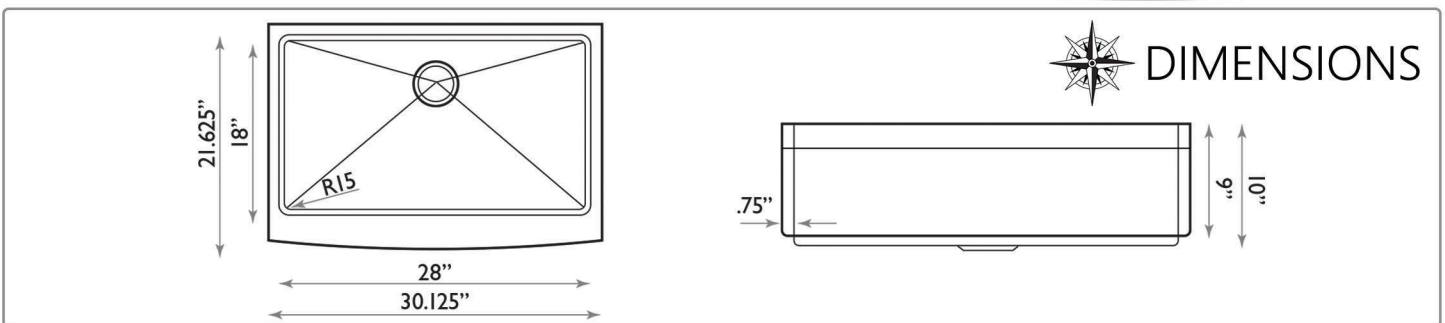

All Dimensions are Nominal +/- .25"

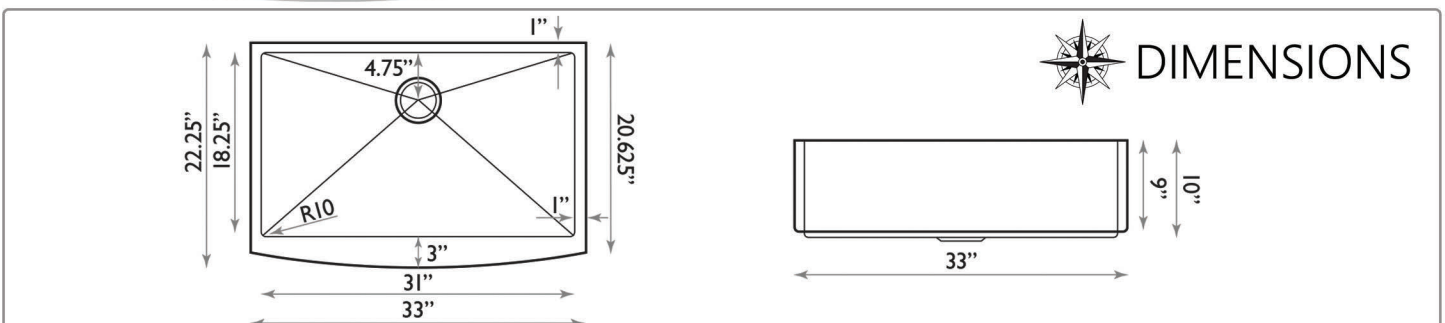

APRON2420-SR-16

APRON302010-SR-16
